UM IMPROVEMENTS

Read more -->

High value engineering service

- ➡ Service agility
- ➡ Innovation and value engineering
- ➡ Integrated design-manufacturing team

Our engineering team works continuously on improvements.

Here's a few examples:

Compact valve for machines branded Sidel Universal*

- ➡ 1 year warranty
- ➡ Significant air saving
- ➡ Maintenance cost reduction
- ➡ Compact unit that eliminates the valve float
- ➡ Plug-and-play valve in current configuration
- ➡ Ideal for water bottling company or pressure under 35 bars
- ➡ Known OEM number: 00000115982, 00000131938, 01177388601, 01177331201

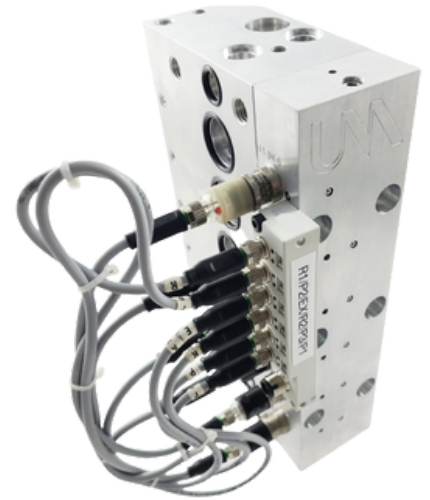

UMS-131938-COMPACT
Blow, Preblow, Recovery

*UM is not a license of Sidel, Kronos or KHS nor have UM parts been approved or authorized by Sidel, Kronos or KHS.

Improved blowing block for machines branded Sidel Matrix*

- ➡ Cost reduction
- ➡ Surface treatment on all moving parts
- ➡ Hardened main block, 35% increase in longevity
- ➡ Replacement of Festo pilot valves with MAC valves
- ➡ 40% savings on maintenance kit compare to OEM
- ➡ We have changed the way the block is machined so it no longer needs to be completely replaced when maintenance is required
- ➡ Known OEM number: 01173934401

UMS-01173934401M

Improved locking/unlocking cam follower for machines branded Krones C2*

- ➡ Cam wear elimination, downtime and R&M savings
- ➡ OEM locking/unlocking cams are not sufficiently hardened
- ➡ The OEM cams have a higher rate of wear. When the cams wear out, then the hangers do not lock and the machine becomes unreliable.
- ➡ Known OEM number: 0403411621

UMKN-0403411621M
